

Outcome: Tier 1 wide-excluded vs Tier 2 narrow-excluded

Right (positive in both) and bottom-left (negative in both) are robust; off-diagonal points are panel-specific.

Seases	II Neoplasms from hospital discharges (CD2_)	VIII Diseases of the ear and mastoid process (H8_)
ed endpoints	II Neoplasms, from cancer register (ICD-O-3)	X Diseases of the respiratory system (J10_)
Endpoints	III Diseases of the blood and blood-forming organs and certain disorders involving the immune mechanism (D3_)	XI Diseases of the digestive system (K11_)
Asthma	Interstitial lung disease endpoints	XII Diseases of the skin and subcutaneous tissue (L12_)
COPD	IV Endocrine, nutritional and metabolic diseases (E4_)	XIII Diseases of the musculoskeletal system and connective tissue (M13_)
Diabetes	IX Diseases of the circulatory system (I9_)	XIV Diseases of the genitourinary system (N14_)
Gastrointestinal endpoints	Miscellaneous, not yet classified endpoints	XIX Injury, poisoning and certain other consequences of external causes (S00-T88)
Interstitial lung disease endpoints	Neurological endpoints	XV Pregnancy, childbirth and the puerperium (O15_)
Neurological endpoints	Other, not yet classified endpoints (same as #MISC)	XVI Certain conditions originating in the perinatal period (P16_)
d endpoints	Psychiatric endpoints from Katri Räikkönen	XVII Congenital malformations, deformations and chromosomal anomalies (Q00-Q99)
s	Quantitative endpoints	XVIII Symptoms, signs and abnormal clinical and laboratory findings not elsewhere classified (R00-R99)
as autoimmune origin	Rheuma endpoints	XXI Factors influencing health status and contact with health services (Z00-Z99)
Endpoints	V Mental and behavioural disorders (F5_)	XXII Codes for special purposes (U22_)
Endpoints	VI Diseases of the nervous system (G6_)	
s and parasitic diseases (AB1_)	VII Diseases of the eye and adnexa (H7_)
